

Collagen Solubilizing Buffer

Catalog # 9075

For Research Use Only - Not Human or Therapeutic Use

DESCRIPTION:	0.05M acetic acid
APPLICATION:	Use to dissolve, solubilize, or dilute collagen
QUANTITY:	5 ml
FORM:	0.05M acetic acid solution
SOURCE:	N/A
USAGE:	Dissolve, solubilize, or dilute collagen for further experiments or analysis. Example: dissolve Cat # 20021 (10 mg immunization grade Bovine Type II Collagen) with 5 ml of this product to make a 2 mg/ml immunization grade Bovine Type II collagen solution. Store diluted collagen solutions at -20 degrees C; avoid frequent freeze-thaw cycles.
STORAGE:	Room temperature
STABILITY:	2 years
NOTES:	This product is NOT the same as Cat # 9003 which is used for diluting ELISA grade collagen for plate coating purposes. Cat # 9075 and Cat # 9003 cannot be used interchangeably.
